7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

Best Practices I 1. Title of the Practice ?Principal L. B. Sainis Smruti Prityartha Jan-Vidnyan Lecture Series? In 2018-19 " Vaidyakiya Seva: Kal ani Aaj" (Medical Services: Yesterday and Today) 2. Goal Following are the core objectives of the lecture series: i. To create interest among the stakeholders and the citizens in science. ii. To acquaint the common people with the day-to-day applications of science. iii. To cultivate and develop the attitude of scientific approach to the activities of daily-routine in the stakeholders and the citizens. iv. To make them aware of the new researches and innovations in scientific rationality. v. To ignite the flame of scientific and rational thinking in the innerness of common people. vi. To facilitate exposure of common man to the utilitarian importance of modern science. vii. To make Arts and Commerce students to cultivate the attitude of scientific culture. viii. It also helps creating interdisciplinary interest and taste among the stakeholders. 3. The Context Contextual: Late Principal L. B. Sainis had been the president of Lok Shikshan Sanstha, Warora. He was a profound student of science having post-graduation in Botany. He was an environmentalist, an astute teacher and researcher, educationist, and administrator As President of the Sanstha, he provided a proficient leadership to the governing body of the college. Because of his initiatives, Lokmanya Mahavidyalya came into being. He loved science, and cherished inculcation of scientific attitude among adolescents. He believed that scientific outlook can make the human life pleasant in this ephemeral world. Today, he is no more. But his spirit keeps its invisible presence in the campus. In order to pay respects to the undiminished academic attitude present in Principal Sainis, college organizes the lecture series. Features: ??It is an annual activity. ??The World-known scientists and researchers are invited to communicate with the stakeholders and the common citizens. ??Till the date, Dr. Bal Phondake, Bio-Physicist, Bhabha Atomic Research Centre (BARC), Trombay, Mumbai, Padma Vibhushan Dr. Jayant Naralekar, renowned Astro-Physicist, Dr. Avinash Bhise, Scientist, Cancer Cell, BARC, Padmashri Dr. Sharad Kale, Bio-Chemist, BARC, Dr. Krishna Sainis, the recipient of Dr. Shanti Swarup Bhatnagar Award, Dr. Prabir Pal, Senior Scientist, Robotics, BARC, and Dr. Kamal Singh, Physicist and Ex. Vice Chancellor have shared their thoughts and views with the candid audience on various scientific topics. In this series, the lectures are arranged on the contemporary scientific innovations. The impact of these innovations on common life is also taken into consideration by the speakers while communicating with the audience. The topics from Robotics to Bio-diversity to Renewable Energy, everything under the sun and non-technical in nature can be discussed. 4. The Practice The college organizes this activity not only for the stakeholders of the college, but also for all the citizens of the Warora and the surrounding. Even the amateurs from nearby villages come to enjoy and enrich themselves. This activity makes them aware of the new researches and their impact on humanity, environment and so on. Now a day, in the higher education, the importance is given to the interdisciplinary studies. The society, literature and science are inseparable from each other. The college has Arts and Commerce as the streams of knowledge. Yet the students are inspired to take interest in general science. The relation between human beings and science is highlighted. Perhaps, it is the only Arts College in the vicinity that tries to inculcate scientific attitude among not only its stakeholders but the citizens. It will help create trend in the field of higher education that the interest of students of Arts and Commerce in science is kept sustained. 5. Evidence of Success Principal L. B. Sainis Smruti Prityartha Jan-Vidnyan Lecture Series is a kind of intellectual feast for the stakeholders, the citizens of Warora and the amateurs from nearby villages. It is becoming more and more popular as the time advances. Dr. Bal Phondake, Dr. Jayant Naralekar, Dr. Sharad Kale, etc have praised and congratulated the principal for the successful organization of

the activity. The presence of well-educated persons, doctors, teachers, engineers, lawyers, civil servants, eminent persons, etc. for these lectures shows the success of the activity.

6. Problems Encountered and Resources Required The college faces some problems while organizing Principal L. B. Sainis Jan-Vidnyan Lecture Series. The college is primarily the college of Arts and Commerce, so it is difficult to contact the appropriate scientists. Another problem is that the college does not get any fund for this activity from anyone. The college spends on the activity from its own resources. It will be a matter of much comfort if UGC / CSIR provides fund for such activities.

7. Notes (Optional) Even in twenty-first century when man is trying to go beyond the solar planetary system, superstitions and social discrimination on caste, creed, and community put severe hazards before the human race. Centuries ago when man did not know the cause of occurrences in Nature, he thought that there is something living behind the clouds and guiding the forces on earth. But man has come much far from its primitive existence. Still, if man behaves as brutes and beasts do, it is certainly a matter of concern. It simply means man has still to be thought about the science behind common happenings in the lap of nature. And Principal L. B. Sainis Smruti Prityartha Jan-Vidjnaya Lecture Series is an innocent effort on the part of the college to educate the people about the reality of life's existence.

2. Goal To increase the students interest in exercise and spreading awareness about health along with entertainment, increasing interest about playing, Badminton and Gym. Providing this Facility to the localities of warora along with the students. Encouraging the people from different section of the society for entertainment along with healthy practices.

3. Context: The sports facilities which are available in the college should be used by students along with other section of the society.

4. Practice : Particular timing has been decided to avail the sports facilities for other sections of the society Morning 7.00 am to 9.00 am, Evening 6.00 pm to 8.30 pm.

5. Evidence of Success: Badminton and Gym is novel in the town like Warora. It helps the stakeholders healthy and energetic. It is becoming more and more popular day by day. Many professional and ordinary people are waiting for the chance to play or practice.

6. Problem Encountered and Resources Required: As per the demand, time allotted to the stakeholders other than the college students is very less. Most of the time is reserved for the college students. There is no permanent coach / trainer for the training of badminton and gym. Lack of proper training decreases the interest of the players. A regular coach cannot be appointed. Therefore, the best trained students perform the role of the coach.
